

Z22
HANDHELD

Small wonder.

Your planner, journal and calendar all in one little place.

The Palm® Z22 organiser was designed by the makers of the original Palm® Pilot specifically for people who haven't seen what a handheld organiser can do. Everything is super simple – a touch of a button brings up your appointments, addresses and more. The Palm® Z22 organiser also comes with a three step set-up guide and easy tutorials on how to use it.

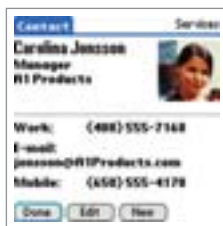

Quick Facts

- Organises appointments, contacts, to-do's
- Simple, easy to use
- Bright, colourful screen
- Keeps information safe¹
- Compact and lightweight
- Holds hundreds of photos²
- 32MB memory³

Top things to love.

We gave our friend Laura a Palm® Z22 organiser and she loved it. This is a list of her favourite things. What'll yours be?

1 Everyone's numbers and address is with me all the time. From my boss to my daughter's soccer coach.

2 Checking off items on my to-do list feels really good.

3 Colour-coded categories. The best. Green for work stuff, pink for play stuff, yellow for kid stuff.

4 See a photo of my daughters' smiling faces anytime.

5 The Find feature thingy! You enter in a name or a topic and then instantly see where it appears: calendar; memos; and more.

6 Playing games⁴. (Okay, I admit it!)

7 With one tap everything is synchronised between my organiser and my computer, I always have a back-up copy.

8 Never forgetting birthdays anymore! I enter it in once, tap "repeat", and it remembers it for next year. An alarm even tells me when to pick up a gift.

¹ Requires compatible computer and installation of included synchronisation software. Included desktop software lets you sync your handheld with your computer and keep a backup copy.

² Photos optimised for your handheld during synchronisation using included photo desktop software.

³ 20MB actual storage capacity.

⁴ Games sold separately.

Z 22
HANDHELD
